## Knobs - Lobe - Clean Line

This knob in white colour has been designed for application on medical and hospital equipment and on food processing machines whose part must be frequently cleaned for hygienic reasons.  
The five lobes shell offers the finger a secure grip. Its shape is compact thus with no cavities, avoiding any unhealthy residue deposits.  
The metal insert in AISI 303 stainless steel can be used in sectors where corrosion resistant materials are required.

Glass fibre reinforced special technopolymer, in white similar to RAL 9002 with matte finish.

Resistant to solvents, oils, greases and other chemical agents.

AISI 303 stainless steel insert with tapped through hole.
