## Solarbotics Kit 10 - L293D Secret Motor Driver

Want to turn a servo into a more powerful gear motor?. Educational build yourself kits.

The Secret L293D motor driver kit replaces the guts of a standard servo and turns it into tidy gear motor with a built in motor driver.

The SGS Thompson L293D is configured to provide up to 1.2A and 36V .....

.... much higher than what a standard servo electronics are designed for.

Don't want to drive a servo? Use the Secret Motor Driver to power any gear motor like the GM2, GM3 or GM4.

This kit fits inside a standard SB-GM4 servo body.

### Solarbotics Kit 10 - L293D Secret Motor Driver

Part Number	Description	Skill Level	Features
SB-KSMD	Servo converter	1 / 5	The indicator LEDs on the kit also make for a good lightshow in the clear servo case
