Tools - Crimping

For crimping loop sleeves, plugs and eyes used with miniature cable.
Used for synchromesh and miniature cables.

This catalogue to be read in conjunction with information at
<http://www.minibearings.com.au/ogue/tech/synchromesh/synchromesh.pdf>

This precision crimping tool gives compound leverage of at least 15-1. The scissor-action plier-type tool has jaws which are made of a tough chrome alloy steel. All component parts of the tool are hardened and tempered. The handles have nonslip plastic grips. Easy to use.

4-nested precision crimping tool
This 4-nested precision crimping tool gives compound leverage of at least 15-1. Crimped properly, it will give at least 50% of rated cable strength when swaged over the nylon. Nylon should be stripped for best swaging bond. The scissor-action, plier-type tool has jaws which are made of a tough chrome alloy steel. All component parts of the tool are hardened and tempered. The handles have nonslip plastic grips. Easy to use. Overall length is 8.6". Can be used for up to 1/16 diameter core steel cable.

NOTE: Not recommended for #10-24 threaded plugs or for cable diameters 3/8" and up.

SMCT-01.50/02.06

Six-cavity multiple-sleeve crimping tool
This six-cavity multiple-sleeve crimping tool is made of high carbon steel, heat-treated and hardened with centerless ground shoulder bolts. It is used on loop sleeves and on cable diameters from 3/64 to 3/16 dia. It covers a range of cable strengths from 270 lbs. to 3700 lbs.

SMCT-02.60/03.40

Tools - Crimping

Part Number	Suits Cable Size mm <i>inches</i>	Description	Description
# SMCT-012	Up to 1.20	4 Nested Crimping Tool with compound leverage of at least 15 to 1	Not recommended for 10-24 Threaded Plugs
# SMCT-048	1.20 to 4.80	6 Cavity multisleeve crimping tool	Covers a range of cable strengths from 120kg to 1650kg
