MOUNTS AND DAMPENERS

Many styles of machinery mounts and vibration dampeners are available in the MBA product range. The types of mounts offered by MBA cater for all types of applications from fragile 50 gram loads to well over 1000kg.

H.E. Supplies are a full line distributor for MBA, so please feel free to browse the MBA web site and contact us for the parts you require.

UNILOAD™ Constant Natural Frequency Mounts are the latest addition to this product range. Ask your distributor for a **FREE** 16 page brochure – “Theory and Practice of UNILOAD™ Constant Natural Frequency Mounts”.

The full range can be found on the MBA website
