### **Robotronics Mantis**

New from Robitronics (<http://www.robtron.com>):

"Robitronic is proud to announce the release of the Mantis RTR 1/8th scale racing truggy. The Mantis truggy was designed to meet the needs of all levels from beginner to racer. The Mantis truggy was made to be ultra durable on the track, easy to handle and maintain. Features like floating gearboxes, a sealed center gearbox, all the suspension and tuning options you will ever need, and a powerful Axial (<http://www.axialracing.com/>) 4.6 big block help set this truggy apart from the rest of the pack. Use of new materials and intelligent design ensure that this truggy is built to last and capable of competing on the track. Mantis – the new name in 1/8th scale off road.

Ready-to-Run

The Mantis comes pre-built, with factory driver set-up, multi-color printed body, and includes an AM radio system with a high torque steering servo and a mini-receiver. The tires are pre-glued on lightweight dish wheels. The kit includes all Allen wrenches, a multi socket wrench, glow-plug igniter, and a 500cc fuel bottle, the only thing left to buy is batteries and fuel!"

Features

- 3mm Aluminum Chassis
- Aluminum Upper Deck
- 4WD Shaft-Drive
- Powerful Axial .28 Spec 1s Pull Start Engine
- Adjustable Suspension
- Fully Sealed Bearings
- Aluminum Shocks with 3mm shock shaft and 14mm piston
- Aluminum Shock Towers
- Composite Suspension Arms
- Polished Tuned Exhaust Pipe
- Sealed Receiver Box
- Sealed Center Gear Box
- Two Stage Air Filter
- Exclusive Ultra Low Diff design for lower center of gravity
- 4 Bevel Gear Differentials
- Unique Braking System with Dual Brake Disk
- Rubber dampened hinge pin pivot points for better bump absorption and increased durability
- Thick composite chassis braces front & rear
- High-tech Radio System with hi-torque steering servo
- Laydown Steering Servo
- Axial Terra-izer Tires
- Lightweight Axial Dish Wheels
- Low profile Axial Mantis body
- Fully printed, decaled and trimmed body
- Floating front and rear differentials
- Universal Joints all around
- Axial Fuel filter with fuel tube holder
- 5 cell 1100mAh receiver battery pack with trickle charger
- 150cc fuel tank with built in splash guard and drain
- Fuel Bottle
- Glow Plug Igniter
- Cross Wrench
- Convenient carry handled box
