INFORMATION

Durable, high quality mount combines effective compression and shear isolation from vibration and shock with the convenience of an internal leveling device.

Deep cavity design allows excellent vibration and shock control in both the vertical and horizontal directions.

Heavy duty ductile iron cover and chemically resistant neoprene insert. Internal leveling device levels up to 12.7mm. Specially designed recess on top of cover houses a rubber washer.

Concentric rings on base of neoprene insert prevents walking or creeping. Ideal for lathes, milling machines, punch presses, printing machines, shears, brakes, injection moulding machines, grinders etc.

Includes all necessary hardware.
